Rail Weighbridges

MADE TO ORDER — BUILT TO LAST

DESIGNS TO SUIT ALL APPLICATIONS AND SITES

DESCRIPTION

Accuweigh is Australia's largest supplier of weighbridges and we have designs to suit all applications, including rail weighbridges.

Whether your application is to weigh the complete wagon or locomotive, a single bogie, or even individual wheels (as with the locomotive weighbridge shown above, used to shim individual wheels and balance the locomotive), Accuweigh has a design and solution for your needs.

Increase the effectiveness of the rail weighbridge by using Accuweigh software to further automate your application and increase productivity.

All rail weighbridge designs are fully engineer-approved.
