

## DESCRIPTION

The Salter 405 bench scale is a low-cost battery or mains powered bench scale ideal for a wide variety of office and warehouse applications, or any application where accurate weighing is required.

The large stainless steel weigh plate and bright red LED display are features normally only found on machines which are much more expensive. A 6V internal, rechargeable battery gives 160 hours of use and makes the machine totally portable. Alternatively, the 405 can be mains powered via an AC adaptor, which is supplied.

The 405 has a simple two-button keyboard - On/Off/Zero and Tare/Units. The model Salter 405 can display in kilograms, grams, ounces, pounds and ounces and decimal pounds.
