

SECA 954 CHAIR SCALE

by
seca
Precision for health

HIGHLIGHTS

- Patients Easy to Move from Bed to Chair Due to the Swivelling Arm and Foot Rests
- Smooth Running Wheels
- BMI Function
- Clear Control Element
- Including Carrying Case for Mains Adaptor

DESCRIPTION

CONSIDERATION, COMFORT AND SAFETY

How can you weigh bedridden patients or people with an impaired sense of balance as gently as possible? The answer is a Seca chair scale as this can be positioned directly next to the patient, saving the patient – and the carer – unnecessary effort.

SWIVELLING ARM AND FOOT RESTS FOR EASY TRANSFER TO SCALE

Consideration and comfort – these are particularly prominent aspects of this stable model with its circular steel tube frame. The armrests which can be folded back make the unimpeded transfer of the patient from chair or bed to the chair scale possible. The foot rests can be folded upwards and pushed under the seat. The lockable rear wheels ensure that it is safe to sit down and stand up.

EFFORTLESS MOBILITY

The Seca 954 has four smooth running pivoting wheels making use possible even in the narrowest of spaces.

PRECISE RESULTS FOR ALL CASES

As the zero point of the weighing function can change due to external influences – especially in the case of such a highly sensitive scale, it is automatically checked and aligned electronically once every second. And to ensure that the Seca 954 determines the precise weight of restless patients, it is fitted with an effective damping system. An additional function: the BMI value and therefore the nutritional condition of the person weighed can be ascertained automatically at the push of a button.

SPECIFICATIONS

Capacity	200kg (440lb)
Graduation	100g (0.2lb)
Dimensions	560mm(W) x 915mm(H) x 815mm(D)
Weight	24.5kg
Power Supply	Mains Adaptor or Rechargeable Batteries
Functions	Automatic Switch-Off, Tare, Hold, BMI, kg/lbs/sts Units Selection
