

Driver Landing & Stairway
(Landing Level with Deck Beam)

Safety Railing

Ladder

Inspection Platform

Bollards

Speed Hump

Full-Length Walkway
(Level with Side Wall or
Level with Deck)

DESCRIPTION

The ever-increasing emphasis on workplace health and safety ensures that weighbridge walkways, stairs, bollards and safety railings are a very important accessory for most weighbridge sites.

Accuweigh manufactures Australian Standard AS-1657 mesh walkways and stairs to suit the site requirements - from a simple driver landing (as shown above) to a full surround walkway and office access.

Accuweigh manufactures Speed Humps which control vehicle entry and exit speeds minimising damage to loadcells, the weighbridge structure and approaches.

Accuweigh also manufactures the AccuWash, a Wheel Wash system that can remove dust, soil, sand and other harmful build-up on wheels, axles, tyres and underbodies fully automatically during one easy drive through.

THE ACCUWASH

FEATURES

- Hot-Dipped Galvanized Finish Typical.
- Manufactured to Australian Standard AS-1657.

OPTIONS

- Other Finishes Available.
- Kick Rails.
- Vehicle Inspection & Sampling Platforms (with Ladder Access).
