Can I get Civils works Australia wide?	YES	YES
Can I do my own Civils works?	YES	YES
Can I use multiple decks to get axle group weights?	YES	YES

Concrete deck and steel deck weighbridges are remarkably similar in functionality, but there are numerous other factors to take into account before deciding on which weighbridge type best suits your own weighing application:

- site location
- traffic volume
- types of trucks
- truck loaded weights
- environmental conditions

Accuweigh is Australia's largest supplier of weighbridges and we manufacture both steel and concrete deck weighbridges. Our sales staff have extensive industry experience and are available to discuss your requirements and needs to ensure you are fully aware of all facets of weighbridge selection before you commit to a specific weighbridge design.
